

Individual pencil sharpener

A ruler that doesn't fold

This kind of eraser does the best job. White, not black or brown.

A4 Lined Paper. Please do not use B5 or any other size.

This kind of scissors.

NOT THIS KIND!!!!

Any brand for mechanical pencils.

Glue stick.

24 count color pencil set, or more than 24. Not less than 24 colored pencils.

The students keep their returned work at school in this kind of folder.

Your child may keep an extra umbrella at school. Please put their name on it.

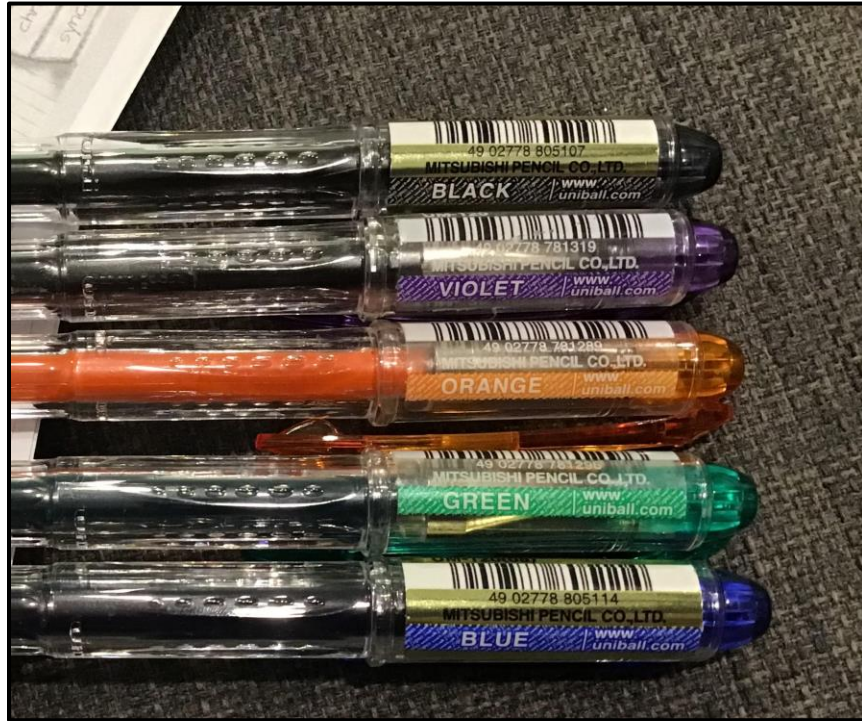

White or clear glue.
You do not need both.

We encourage our students to drink water throughout the day. Be sure to put their name on their bottle.

Usually, I do not allow the students to have pens for writing. This year, however, is an exception. The pens will only be used for special reasons, not for regular schoolwork. Thank you.

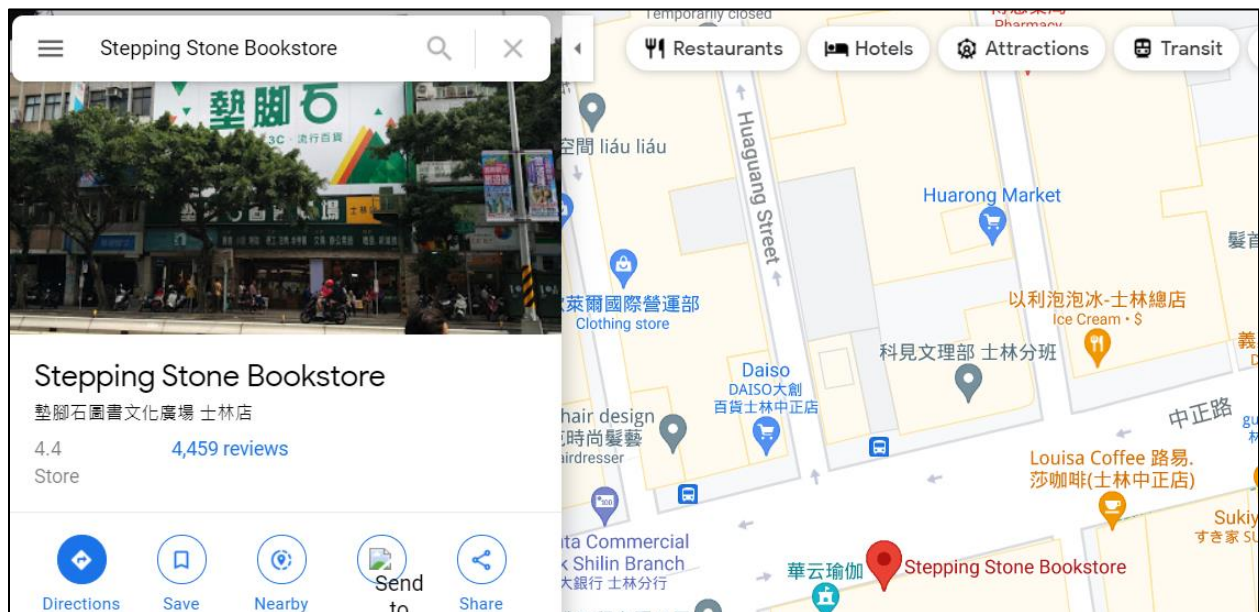

Your child will need 5 pens, in the following colors and brand.

Brand:

I bought the pens from the following store. There are a few around Taipei. I like how well the pen moves across the paper. The pens also do not cost very much. You might find them in another store, which is fine.

For the special projects this year, the students can bring sticky notes and washi tape. The washi tape needs to be a light, solid color so that it can be written on. The sticky notes also need to be a light color, so that they can be written on. If your child would also like little cards, they can bring those also, for this special project. These items cannot be a plastic kind of material, as they need to be written on. They are for use only for the special project. This special project will last all year.
